In a telephone call from Chambers last week, Counsel for Defendant was requested to submit, in writing, a motion seeking Defendant's temporary release for medical purposes (consulting first with the Government to determine whether the motion is on consent), if such release is necessary. For the reasons set forth in the Court's Order dated March 10, 2008, timely attention by Counsel to such requests is essential.

Accordingly, counsel for Defendant shall submit Defendant's motion, or notice that there will be no such motion, by Monday, March 17, 2008, at 4 p.m. The Clerk of Court is respectfully requested to docket this letter and the attached letter from Dr. Saran Rosner.

So Ordered:

Dear Judge Kenneth M. Karas:

Mr. Henry Steeneck Jr. has been under my care since November 20, 2007 for malfunctioning shunt. I need to have him available to me for four days so I can do a Isotope shut o-gram starting on March 19, 2008 @ 8:30 am, the patient needs to be there @ 7:30 a.m. This procedure is then followed by a CAT scan once a day for the next three days. This whole procedure will be done at Hudson Valley Hospital.

Please do not hesitate to contact me at the number provided above with any questions or concerns.

Sincerely,

Saran S. Rosner, M.D.
